

University College London Hospitals NHS Foundation Trust

An Integrated Cancer Care Conference.

In association with The Florence Nightingale School of Nursing and Midwifery,
Kings College, London

Tuesday 14th October 2008

9.30 am **Registration**

Chair Angie Buxton-King Complementary Therapy Team Manager Cancer Services UCLH

10.00-10.20 **Welcome & Overview of the day**

Stephen Rowley RGN, RSC BSc (Hons) MSc Lead Cancer Nurse UCLH

10.20-10.50 **Dr Maria Michelagnoli MD FRCPCH**

Maria will explain her initial reservations of offering complementary therapy to her paediatric and teenager cancer patients and outlines how she now views the benefits for her patients. She advocates for what she sees as an essential supportive tool within the MDT for the whole family experience.

10.50 -11.10 **Coffee**

11.10- 1150 **Therapist experience**

Highlighting the use of aromatherapy massage, reflexology and reiki with our cancer patients. Discuss the use of an aromatherapy tool that is given to patients to use to help themselves during periods of nausea and stress.

11.50-1220 **Nurse Perspective Moira Walker**

An experienced cancer nurse explores the nurse experience of working with complementary therapists in cancer care

12.20-1.20 **Lunch**

1.20 -1.50 **Research Simon Clare**

Discussing the challenges of designing and implementing a RCT protocol for Reiki in an acute cancer care setting .Learning how to overcome the obstacles and help create a bench mark for good practise for future designs in this arena

1.50- 2.20 **Sara Goldman and Angie Buxton –King How do we fund our service?**

Sara will share her experiences of fundraising for the leukaemia and lymphoma unit .Angie will share fundraising ideas to help pilot complementary therapy within cancer care.

2.20 -3.00 **A Patient's Experience Emma Turner**

A valuable insight into a patient's experience of using CT alongside conventional medicine and an opportunity to ask questions to inform your own practice.

3.00-3.20 **Tea Break**

3.20 – 3.50 **North London Cancer Network scoping project**

Presentation of a recent scoping exercise completed by the NLCN looking at best practise and guidelines for the implementation of CT within the network .Where is CT available and how is it accessed?

3.50 - 4.15 **Final questions followed by showing of DVD to end the day**

Opportunity to ask final questions on the day, complete evaluation forms and view a short DVD of patient ,therapist and medical experience of CT at UCLH .

NB: The Complementary Therapy Team will be available throughout the day to answer questions
